PROFILE

Final-year BSIT graduate from MAO College (affiliated with Punjab University), with a strong interest in frontend web development. Skilled in HTML, CSS, JavaScript, and React.js. Created multiple responsive websites and projects, including an e-commerce site and a React-based to-do list app. Eager to gain real-world experience as a Frontend Developer Intern and continue growing in modern web technologies.

TECHNICAL EXPERIENCE

Final Year Project

2025

E-Commerce Website

- Built responsive frontend using HTML, CSS, and JavaScript
- Collaborated with backend team for integration
- Created responsive and intuitive interfaces for browsing products, managing cart, and completing purchases.

Self Project

2025

To-Do List App

- Created a task management web app using React.js
- Features: Add, delete, complete tasks with localStorage
- Responsive design

Freelance Practice

2024 - 2025

Static Websites

- Designed and developed 2+ responsive, mobile-friendly websites using HTML5 and CSS3
- Focused on clean UI/UX, layout design, and browser compatibility
- Deployed projects via GitHub Pages with version control using Git

Portfolio

Static Websites

- Designed and developed a personal portfolio website using React.js to showcase projects, skills, and contact details.
- Implemented reusable components, smooth scrolling, and responsive layout. Hosted on GitHub Pages.
